MASTER WARRANTY POLICY

Effective Date : **01/09/2026**
Version : **KP - MWP - 01/2026**

This Master Warranty Policy governs warranties expressly offered by Kerala Paints Industries Private Limited, hereinafter referred to as "Kerala Paints" or the "Company", in respect of eligible Kerala Paints products sold in India.

The purpose of this Policy is to clearly define the scope of warranty, eligibility requirements, application conditions, covered failures, exclusions, claim procedures, technical assessment process and remedies available in relation to products for which Kerala Paints expressly offers a warranty.

This Master Warranty Policy shall be read together with:

1. **The warranty period expressly stated on the product label or packaging;**
2. **The applicable product information sheet / technical data sheet;**
3. **The directions for use appearing on the product container;**
4. **The applicable product-specific warranty schedule, wherever issued;**
5. **The warranty registration confirmation issued by kerala paints; and**
6. **The terms contained herein.**

Where a Product-Specific Warranty Schedule prescribes additional or more specific technical conditions for a particular product, those product-specific conditions shall apply to that product together with this Master Warranty Policy.

1. PRODUCTS ELIGIBLE FOR WARRANTY

Warranty shall be available only for Kerala Paints products on whose label, container, packaging, Product-Specific Warranty Schedule or official product literature an express warranty period has been specifically mentioned by Kerala Paints.

The duration and nature of warranty may differ between products and between different performance characteristics of the same product.

The mere sale or use of a Kerala Paints product shall not by itself create a performance warranty unless such warranty has been expressly declared by the Company.

2. PRODUCTS NOT COVERED BY PERFORMANCE WARRANTY

Unless Kerala Paints expressly declares otherwise in writing on the relevant product label or Product-Specific Warranty Schedule, no performance warranty is offered for:

A. Primers of any type;

B. Smart shine, including where smart shine is used as a base coat or component of another painting system;

C. Putties, sealers, base coats, preparatory products, additives, ancillary coatings or other supporting products where no warranty is expressly mentioned;

D. Products manufactured, supplied or sold by third parties;

E. Any kerala paints product on whose label or packaging no warranty is specifically stated; and

F. Any product used outside its recommended application, substrate or purpose.

The absence of a voluntary performance warranty shall not affect any rights or remedies that cannot lawfully be excluded under applicable law in respect of a proven manufacturing defect or other statutory liability.

3. NATURE OF KERALA PAINTS WARRANTY

Depending upon the particular product, Kerala Paints may offer one or more of the following:

3.1 Manufacturing Quality Warranty

A warranty that the product, when manufactured and supplied, conforms to the declared specifications and applicable quality parameters of Kerala Paints, subject to permitted manufacturing tolerances and applicable standards.

3.2 Performance Warranty

A warranty relating to specified performance characteristics of a correctly selected, prepared and applied Kerala Paints coating system for the period expressly stated for the product.

3.3 Waterproofing / Water Resistance Warranty

Where expressly offered, a warranty relating only to the particular type of water resistance or waterproofing performance specifically described for the applicable product and application system.

3.4 Other Product-Specific Warranty

Any special warranty expressly provided in the applicable Product-Specific Warranty Schedule.

No characteristic shall be treated as warranted merely because it forms part of general advertising, unless the particular characteristic and applicable warranty period are expressly included in the applicable warranty terms.

4. MANDATORY WARRANTY REGISTRATION

For availing the voluntary Kerala Paints performance warranty, the customer shall register the eligible product warranty online at:

www.keralapaints.com

under the "Warranty" tab.

Registration must be completed within fifteen (15) days from the date of completion of painting/ application and, in any event, within the registration period prescribed on the applicable product warranty.

Where the Product-Specific Warranty Schedule provides a different commencement or registration requirement, that specific condition shall prevail.

The customer shall provide all information reasonably required by Kerala Paints for warranty registration.

Upon successful registration and verification, a unique Kerala Paints Warranty Number / Warranty Identification Number shall be generated and communicated to the email address provided by the customer.

The Warranty Number should be quoted in all future correspondence relating to the warranty or any warranty claim.

5. INFORMATION REQUIRED FOR WARRANTY REGISTRATION

Kerala Paints may require, among other things:

1. Customer name;
2. Mobile number;
3. Email address;
4. Complete site address;
5. Product name;
6. Product variant;
7. Shade name / shade code, where applicable;
8. Quantity purchased;
9. Quantity applied;
10. Batch number;
11. Manufacturing date, wherever available;
12. Dealer / factory outlet / exclusive outlet details;
13. Invoice number;
14. Invoice date;
15. Copy of invoice;
16. Approximate area painted;
17. Type and condition of substrate;
18. Primer used;
19. Putty used;
20. Base coat or intermediate coat used;
21. Kerala paints topcoat used;
22. Number of coats applied;
23. Approximate coverage achieved;
24. Painting/application commencement date;
25. Painting/application completion date;
26. Painter / contractor name and contact details;
27. photographs of the site, wherever requested; and
28. such further information as may reasonably be required to verify warranty eligibility.

Kerala Paints may decline registration where material information necessary to establish warranty eligibility is not supplied or where the information furnished is materially incorrect, misleading or incapable of verification.

6. PROOF OF PURCHASE

The customer shall retain the original purchase invoice, warranty registration confirmation and such other documents reasonably relevant to the warranty for the duration of the warranty period.

The Company may request a copy of the invoice or other reasonable evidence of purchase and application while processing a claim.

Failure to produce an original invoice shall not automatically defeat a genuine statutory claim where purchase can otherwise be established in accordance with law, but Kerala Paints may require reasonable documentary evidence for processing its voluntary warranty.

7. WARRANTY COMMENCEMENT DATE

Unless otherwise expressly specified for a particular product, the warranty shall commence from the date of completion of painting/application recorded during successful warranty registration, subject to verification by Kerala Paints.

Where the painting work has been carried out in phases or interrupted for a substantial period, Kerala Paints may determine the appropriate commencement date on the basis of:

A. Invoices;
B. Application records;
C. Customer declarations;
D. Painter or contractor records;
E. Inspection evidence; and
F. Other available evidence.

The determination shall be made reasonably and on the basis of available records.

7.1 Tinted Paint Usage Period

Where a Kerala Paints product has been tinted, colour-mixed or shade-dispensed at the dealer, outlet, factory outlet or any authorized tinting location, the tinted product shall be applied and consumed within fifteen (15) days from the date of purchase/invoicing.

Where a tinted product is applied after the expiry of the above fifteen-day period, the voluntary performance warranty applicable to such product shall not be available.

The customer shall retain the purchase invoice and, where available, the tinting/shade details for verification of compliance with this requirement.

8. WARRANTY PERIOD

The warranty period applicable to each eligible product shall be the period expressly mentioned on the product label, packaging or Product-Specific Warranty Schedule.

Different performance characteristics may carry different warranty periods.

For example, a product may carry one duration for film integrity and another duration for algae resistance, waterproofing performance, colour retention or another specific characteristic.

No warranty period shall be inferred beyond the period expressly declared by Kerala Paints.

Settlement or rectification of a warranty claim shall not restart or extend the original warranty period, unless Kerala Paints expressly agrees otherwise in writing.

9. WARRANTY APPLIES TO THE SPECIFIED PAINTING SYSTEM

Where the warranty has been offered for a painting system, the warranty shall apply to the system and not merely to one isolated product used within that system.

The warranty shall be valid only when:

A. The substrate is suitable for the product;
B. Surface preparation has been properly carried out;
C. Required repairs have been completed;
D. Moisture conditions are within applicable limits;
E. Recommended primer, putty, base coat, intermediate coat and topcoat specifications have been followed;
F. The required number of coats has been applied;
G. Recommended dilution has been followed;
H. Specified drying and recoating intervals have been followed;
I. Recommended coverage / spreading rate / film thickness has been substantially achieved;
J. Application has been carried out under suitable environmental conditions;

K. Application instructions contained in the relevant product information sheet and container directions have been followed; and
L. The entire area required to form part of the protected system has been appropriately coated.
Where a product-specific warranty schedule requires exclusive use of specified kerala paints products as part of the warranted system, the use of any substituted product may affect the warranty to the extent such substitution causes or materially contributes to the claimed failure.

10. PRODUCT INFORMATION SHEET

Application shall be undertaken in accordance with the Product Information Sheet / Technical Data Sheet applicable to the product at the time of purchase/application.
Kerala Paints may maintain version-controlled Product Information Sheets.
For warranty investigation purposes, the Company may rely upon the Product Information Sheet applicable to the relevant batch or period of application.

11. SURFACE PREPARATION

Proper surface preparation is an essential condition of performance.
Before application, the surface shall, as applicable:
A. Be structurally sound;
B. Have adequate curing;
C. Be free from loose plaster;
D. Be free from dust, dirt, oil, grease and contaminants;
E. Be free from loose or defective previous coatings;
F. Be reasonably dry within the moisture requirements prescribed for the product;
G. Be free from active leakage and uncontrolled seepage;
H. Have cracks appropriately repaired;
I. Have efflorescence, salts, algae, fungus or other contamination appropriately treated;
J. Have plumbing leakage or water entry sources rectified; and
K. Satisfy other preparation conditions specified for the relevant product.

12. EXISTING COATINGS, PUTTY AND SUBSTRATE

Kerala paints does not warrant the structural integrity, adhesion, durability or performance of:
A. Existing paint films;
B. Third-party putties;
C. Third-party primers;
D. Plaster;
E. Masonry;
F. Cementitious layers;
G. Waterproofing systems of other manufacturers;
H. Texture coatings;
I. Pop or gypsum surfaces;
J. Tiles or tile joints;
K. Structural members; or
L. Other underlying materials not manufactured and expressly warranted by kerala paints.
Where failure of any such underlying layer causes or materially contributes to failure of the kerala paints coating, such consequential coating failure shall not ordinarily constitute a covered product-performance failure.

13. DEFINITION OF “PAINT FAILURE”

For purposes of this Policy, “Paint Failure” means only a failure expressly included within the applicable Product-Specific Warranty Schedule.
Depending upon the product, covered Paint Failure may include one or more of:
A. Abnormal peeling;
B. Abnormal flaking;

C. Loss of adhesion between warranted coating layers;
D. Coating separation from a properly prepared and suitable substrate;
E. Blistering attributable to a covered product-performance failure;
F. Abnormal cracking or splitting of the paint film attributable to the warranted coating and not to structural or substrate movement;
G. Excessive film deterioration attributable to defective material;
H. Excessive shade fading beyond the level permitted under the applicable product warranty;
I. Algae or fungal growth where specifically warranted;
J. External water ingress through a specifically warranted waterproofing system; or
K. Another failure specifically mentioned in the product-specific warranty schedule.
Normal ageing, ordinary weathering or aesthetic variation shall not automatically constitute Paint Failure.

14. CAUSE OF FAILURE PRINCIPLE

The presence of peeling, blistering, cracking, discoloration, dampness or another visible symptom shall not by itself establish that the Kerala Paints product is defective.
Warranty liability shall depend upon the reasonably established cause of failure.
For warranty assessment, Kerala Paints may classify a complaint as:
Category A - Confirmed Manufacturing Defect
Category B - Covered Product / System Performance Failure
Category C - Application or Workmanship Failure
Category D - Substrate / Putty / Plaster / Structural Failure
Category E - Moisture / Water Ingress / External Source Failure
Category F - Damage, Misuse, Alteration or External Cause
Category G - Inconclusive, requiring further investigation or testing
A warranty remedy shall ordinarily arise only where the failure falls within a category covered under the applicable Product-Specific Warranty Schedule.

15. GENERAL EXCLUSIONS

Unless expressly covered under a particular Product-Specific Warranty Schedule, the warranty does not cover failure caused or materially contributed to by:

1. Structural cracks or structural defects;
2. Settlement, movement, expansion, contraction, distortion or failure of the building;
3. Defective plaster;
4. Debonding or failure of putty;
5. Debonding or failure of a previous coating;
6. Defective masonry;
7. Failure of an underlying texture coating;
8. Water leakage from plumbing;
9. Leakage from concealed pipes;
10. Leakage from drainpipes;
11. Leakage from sanitary fittings;
12. Leakage through tile joints;
13. Leakage from terraces or roofs where such areas are not covered under the relevant warranted system;
14. Water entering from adjacent or untreated surfaces;
15. Capillary rising dampness;
16. Ground moisture;
17. Persistent or excessive substrate moisture;
18. Efflorescence;
19. Excessive alkalinity;
20. Condensation;
21. Waterlogging;

22. Defective drainage;
23. Uncontrolled seepage;
24. Defective building design;
25. Structural waterproofing defects;
26. Cracks beyond the tolerance permitted for the relevant product;
27. Surfaces left untreated or uncoated;
28. Inaccessible portions of the building;
29. Subsequent civil work or structural modifications;
30. Drilling, cutting, chasing or puncturing after painting;
31. Fixing of antennas, brackets, pipes, signboards or other installations after painting;
32. Impact or mechanical damage;
33. Abrasion;
34. Scratching;
35. Furniture impact;
36. Nails or sharp objects;
37. Chemical exposure;
38. Acids, alkalis, solvents, oils or aggressive cleaning chemicals;
39. Incorrect dilution;
40. Excessive dilution;
41. Insufficient film thickness;
42. Inadequate quantity of paint;
43. Failure to apply the recommended number of coats;
44. Inadequate drying or curing;
45. Application on wet or contaminated surfaces;
46. Improper surface preparation;
47. Improper application method;
48. Use contrary to the product information sheet;
49. Incorrect tinting or unauthorized tinting;
50. Mixing kerala paints products with unauthorized materials;
51. Unauthorized additives;
52. Acts or omissions of painters, applicators or contractors;
53. Abuse or negligence;
54. Vandalism;
55. Fire;
56. Explosion;
57. Earthquake;
58. Cyclone;
59. Flood;
60. Lightning;
61. Extraordinary natural events;
62. Vegetation in direct contact with the coated surface;
63. Excessive bird droppings or biological contamination;
64. Insects or vermin;
65. Standing plant pots or persistent water exposure;
66. Air-conditioner drain water or other continuous localized water sources;
67. Normal wear and tear;
68. Normal weathering;
69. Gradual ageing;
70. Normal loss of gloss or sheen;
71. Ordinary dirt pickup;
72. Staining caused by external substances;
73. Circumstances outside the reasonable control of kerala paints; and

74. Causes unrelated to a defect or covered performance failure of the kerala paints product.
Unless expressly stated otherwise by Kerala Paints in a Product-Specific Warranty Schedule, the voluntary Performance Warranty, Anti-Algal Warranty, Anti-Fungal Warranty or any similar coating-performance warranty shall not apply to paint applied on compound walls, boundary walls or other freestanding perimeter masonry walls.
The exclusion shall apply to the extent the excluded condition caused or materially contributed to the reported failure.

16. THIRD-PARTY PRODUCTS

Use of a third-party primer, putty, sealer, base coat, waterproofing material, additive or other coating shall not automatically invalidate every warranty claim.
However, where technical investigation establishes that the third-party product, its incompatibility, its application or its failure caused or materially contributed to the complained-of failure, the resulting failure shall not be covered under the Kerala Paints performance warranty.
Where a Product-Specific Warranty Schedule expressly requires the use of a complete Kerala Paints system as a precondition to the offered warranty, that requirement shall apply.

17. PAINTER AND CONTRACTOR WORKMANSHIP

Unless painting/application has been expressly undertaken or warranted by Kerala Paints under a separate written service agreement, the performance warranty on Kerala Paints products shall not constitute a warranty of the workmanship of an independent painter, contractor or applicator.
Kerala Paints shall not ordinarily be responsible under its product warranty for failures caused by:

A. Improper surface preparation;
B. Inadequate curing;
C. Incorrect mixing;
D. Improper dilution;
E. Insufficient coats;
F. Poor workmanship;
G. Inadequate film thickness;
H. Improper application tools or methods; or
I. Departure from the specified painting system.
Nothing herein shall affect any separate written workmanship warranty expressly issued by kerala paints.

18. Natural colour and appearance variation

Paint is exposed to climatic and environmental conditions and may undergo normal ageing.
Unless specifically warranted otherwise, the following shall not automatically constitute product failure:
A. Normal fading;
B. Minor shade variation;
C. Variation between batches;
D. Touch-up visibility;
E. Difference caused by substrate texture;
F. Normal loss of sheen;
G. Normal chalking associated with ageing;
H. Differential weathering between differently exposed walls; or
I. Aesthetic variation arising from partial repainting.
Where a repaired area is repainted after several years, kerala paints does not guarantee an exact visual match between the newly applied coating and the naturally aged surrounding coating.

19. WARRANTY CLAIM NOTIFICATION

If the customer discovers a condition believed to constitute a covered Paint Failure, the customer should notify Kerala Paints within thirty (30) days of discovering the failure, or within such other period specifically prescribed for the relevant product.

The customer should submit the claim through the warranty / complaint facility available on www.keralapaints.com or through another officially designated Kerala Paints customer service channel.

The claim should include:

A. Warranty number;
B. Customer details;
C. Site address;
D. Description of the issue;
E. Date the issue was first noticed;
F. Photographs and/or video of the affected area;
G. Invoice details;
H. Approximate affected area; and
I. Other information reasonably requested for investigation.

Delayed reporting shall not automatically extinguish statutory rights, but where delay materially prejudices the company's ability to determine the cause of failure, such prejudice may be considered while assessing the voluntary warranty claim.

20. PRESERVATION OF AFFECTED AREA AND EVIDENCE

20.1 Duty to preserve the affected area

Upon discovering an alleged paint failure and until kerala paints has been given an opportunity to inspect and document the affected area, the customer shall preserve the affected surface and all reasonably available evidence relating to the alleged failure.

Except as permitted under clause 20.3 Below, the customer shall not, before inspection by kerala paints:

A. Repaint or overcoat the affected area;
B. Scrape, sand, wash, chemically treat or remove the failed coating;
C. Remove or replace the underlying putty, primer, plaster or substrate;
D. Apply any other paint, putty, waterproofing material, chemical treatment or corrective coating;
E. Carry out civil, plumbing, waterproofing or surface repairs that may alter or conceal the nature or cause of the alleged failure;
F. Dispose of removed paint film, coating material or other relevant samples;
G. Alter any condition materially relevant to determining the root cause of the failure; or
H. Otherwise destroy, conceal or materially interfere with evidence reasonably required for technical investigation.

20.2 Effect of alteration before inspection

Where the affected area has been repaired, repainted, removed, altered or otherwise materially changed before kerala paints has been provided a reasonable opportunity to inspect it, and such alteration prevents or materially prejudices the company's ability to determine:

A. The existence of the alleged failure;
B. The extent of the failure;
C. The coating system used;
D. The condition of the substrate or underlying layers; or
E. The probable root cause,

Kerala paints may decline the voluntary warranty claim to the extent that warranty eligibility or causation can no longer reasonably be established because of such alteration.

The mere fact that repair work has been undertaken shall not automatically invalidate a claim where adequate reliable evidence remains available to determine the nature and cause of the alleged failure.

20.3 Emergency repairs

Nothing in this policy requires a customer to postpone work that is reasonably and immediately necessary to:

A. Protect the safety of persons;

B. Prevent significant further damage to the building or property;

C. Control active water leakage;

D. Address an immediate electrical, structural or similar safety risk; or

E. Comply with a lawful direction of a competent authority.

For the purpose of this clause, ordinary repainting, aesthetic rectification, routine maintenance or non-urgent corrective work shall not constitute an emergency.

20.4 Requirements where emergency repair is necessary

Where emergency repair is necessary before kerala paints is able to inspect the site, the customer shall, wherever reasonably possible:

A. Notify kerala paints before commencing the repair;

B. Provide kerala paints with photographs and video recordings clearly showing the affected area before alteration;

C. Record the approximate dimensions and location of the affected area;

D. Photograph the sequence of coating layers and underlying substrate exposed during repair;

E. Preserve representative samples of failed paint film, putty, plaster or other relevant material, where reasonably possible;

F. Preserve remaining product containers, batch details and unused product, if available;

G. Retain invoices, contractor records and details of the emergency repair;

H. Record the reason why immediate repair could not reasonably await kerala paints' inspection; and

I. Provide such evidence to kerala paints during investigation of the claim.

20.5 Where prior notice is not possible

Where the nature of the emergency genuinely prevents prior notification, the customer shall notify kerala paints as soon as reasonably practicable after the emergency work has been undertaken and provide the records required under clause 20.4.

20.6 Failure to preserve evidence

Where material evidence has been destroyed, concealed or materially altered without reasonable justification and kerala paints is consequently unable to establish whether the reported failure is:

A. A manufacturing defect;

B. A covered performance failure;

C. An application or workmanship failure;

D. An underlying substrate or structural failure;

E. A moisture or water-ingress issue; or

F. Another excluded cause,

The company may determine that the voluntary warranty claim cannot be technically substantiated. Such determination shall be based upon the extent to which the loss of evidence materially affects the investigation and shall not operate to exclude any statutory right or remedy that cannot lawfully be excluded.

20.7 Company's inspection opportunity

Following receipt of a warranty claim containing sufficient information to identify the site and alleged failure, kerala paints shall be given reasonable access to inspect the affected area.

Kerala paints shall endeavour to arrange inspection within a reasonable period having regard to:

A. Location of the site;

B. Nature and seriousness of the complaint;

C. Accessibility;

D. Availability of technical personnel; and

E. Urgency of the circumstances.

21. COMPANY'S RIGHT TO INSPECT

Kerala Paints shall have the right, upon reasonable notice, to inspect the site relevant to a warranty claim.

Inspection may be performed by:

A. Kerala paints technical personnel; b. Quality-control personnel;
C. Authorized representatives; d. Technical consultants;
E. Laboratories; f. Civil / coating experts; or
G. Another person nominated by kerala paints.

The purpose of inspection may include establishing:

1. Nature of failure;
2. Extent of affected area;
3. Surface condition;
4. Moisture level;
5. Substrate condition;
6. Condition of putty and primer;
7. Number and thickness of coating layers;
8. Possible water sources;
9. Structural defects;
10. Application method;
11. Compatibility of products;
12. Environmental causes; and
13. Probable root cause.

22. TESTING AND SAMPLING

Where reasonably necessary, Kerala Paints may:

A. Take paint-film samples; b. Collect unopened product samples;
C. Collect retained product samples; d. Measure moisture;
E. Measure film thickness; f. Conduct adhesion tests;
G. Inspect substrate layers; h. Conduct laboratory analysis;
I. Compare batch samples; j. Review manufacturing quality-control records; or
K. Undertake such other technical assessment as may reasonably assist in determining causation.

Where destructive testing is reasonably required, the scope of such testing shall, as far as practicable, be limited to what is necessary for investigation.

23. WARRANTY INVESTIGATION REPORT

Kerala Paints may prepare an internal or customer-facing Technical Warranty Inspection Report recording:

1. Warranty number; 2. Site details;
3. Product details; 4. Batch details;
5. Application information; 6. Photographs;
7. Observations; 8. Moisture readings;
9. Substrate observations; 10. Identified failure;
11. Probable root cause; 12. Classification of cause;
13. Warranty eligibility; and 14. Recommended remedy or corrective action.

A warranty claim shall be assessed based on the available technical evidence and not merely on the appearance of the complained-of symptom.

24. CUSTOMER COOPERATION

The customer shall provide kerala paints reasonable access to:

A. The affected area; b. Purchase documents;
C. Warranty records; d. Remaining paint containers;
E. Batch-number information; f. Painter or contractor information; and
G. Other material reasonably necessary for investigation.

Where the customer prevents inspection or destroys material evidence after being reasonably requested to preserve it, Kerala Paints may assess the claim on the evidence available and may decline the voluntary warranty claim where causation cannot reasonably be established because of such non-cooperation.

25. WARRANTY REMEDY

Where Kerala Paints determines that a covered warranty failure has occurred, Kerala Paints may provide the remedy specified in the applicable Product-Specific Warranty Schedule.

Depending upon the product and nature of failure, the remedy may include:

A. Replacement product;
b. Paint material required for rectification;
C. Proportionate material contribution;
d. Labour contribution where specifically included;
E. Reapplication of coating;
f. Another technically appropriate corrective treatment; or
G. Refund or other remedy where required by applicable law.

26. AFFECTED PORTION PRINCIPLE

Unless the Product-Specific Warranty Schedule expressly provides otherwise, any voluntary warranty rectification shall ordinarily be limited to the area actually affected by the confirmed covered failure together with such adjoining area as Kerala Paints reasonably determines is technically necessary to carry out proper rectification.

Failure affecting one portion of a building shall not automatically entitle the customer to repainting or replacement of unaffected portions of the building.

27. REPLACEMENT MATERIAL

Where replacement paint is the applicable remedy, Kerala Paints may provide the quantity of material reasonably required for rectification of the eligible affected area.

The quantity shall be determined taking into account:

A. Affected area;
b. Recommended coverage;
C. Number of coats required;
d. Product system;
E. Surface condition; and
f. Technically necessary adjoining area.

28. LABOUR

Labour shall be included in the voluntary warranty remedy only where expressly stated in the applicable Product-Specific Warranty Schedule.

Where labour contribution is expressly covered, Kerala Paints may calculate such contribution using reasonable prevailing labour rates, Company-approved service rates or another transparent basis appropriate to the geographical area and nature of work.

Where labour is not expressly included in the product warranty, the warranty shall be limited to the remedy expressly specified for that product, subject always to non-excludable remedies under applicable law.

29. PROPORTIONATE / PRO-RATA WARRANTY

Kerala Paints may specify a pro-rata warranty liability schedule for individual products.

Where such a schedule applies, the Company's voluntary warranty contribution may reduce progressively depending upon the age of the coating at the time the covered failure arises.

The relevant percentages and calculation method shall be specifically disclosed in the Product-Specific Warranty Schedule.

30. MAXIMUM VOLUNTARY WARRANTY CONTRIBUTION

Subject to applicable law and the relevant Product-Specific Warranty Schedule, Kerala Paints' voluntary performance-warranty contribution shall ordinarily be limited to the cost or proportionate cost reasonably required to rectify the covered affected area in accordance with the applicable warranty remedy.

31. INDIRECT OR CONSEQUENTIAL LOSS

To the extent permitted by applicable law, the voluntary product-performance warranty does not cover indirect, remote or consequential losses unrelated to the reasonable rectification of the covered coating failure.

32. REMEDY DOES NOT CONSTITUTE ADMISSION

Inspection of a site, provision of technical assistance, supply of replacement material, participation in corrective work or extension of goodwill assistance shall not by itself constitute an admission that the product was defective or that Kerala Paints was legally liable.

Kerala Paints may, where commercially appropriate, provide goodwill assistance without admission of liability.

33. GOODWILL SETTLEMENTS

Nothing in this Policy prevents Kerala Paints from offering a customer an ex gratia or goodwill settlement outside the strict terms of the warranty.

Unless expressly stated otherwise in writing, any such settlement:

A. Is case-specific;

B. Shall not create a precedent;

C. Shall not alter the warranty terms applicable to other customers; and

D. Shall not constitute an admission of product defect or legal liability.

34. NO AUTOMATIC WARRANTY TRANSFER

Unless otherwise specified in a Product-Specific Warranty Schedule, warranty registration shall relate to the registered building/site and original customer.

Any request for transfer following sale or transfer of the property may be considered subject to:

A. Original warranty verification;

B. Continuity of the original coating system;

C. Absence of subsequent alterations affecting the system; and

D. Such reasonable documentation as kerala Paints may prescribe.

35. FRAUDULENT OR MISLEADING CLAIMS

Kerala Paints reserves the right to reject a voluntary warranty claim where there is reasonable evidence of:

A. Falsified invoices;

B. Manipulated photographs;

C. False warranty registration information;

D. Incorrect quantity declaration;

E. Deliberate concealment of subsequent repairs;

F. Substitution of products;

G. Tampering with batch information;

H. Deliberate misrepresentation of the cause or date of failure; or

I. Other material fraud.

Such rejection shall be without prejudice to any rights available to the Company under law.

36. WARRANTY CANCELLATION / VOIDING

A warranty may cease to apply to a particular failure where, after registration:

A. The warranted surface has been structurally altered;

B. Another coating has been applied over the warranted system contrary to technical instructions;

C. The surface has been punctured, cut or materially damaged;

D. Subsequent civil works materially affect the coating;

E. An unauthorized chemical treatment damages the coating;

F. A source of water ingress unrelated to the warranted coating develops; or

G. The original system has otherwise been materially altered.

Such circumstances shall affect warranty coverage only to the extent they are relevant to the claimed failure.

37. NO WARRANTY FOR UNRELATED COMPONENTS

A Kerala Paints warranty does not constitute a warranty for the entire building or structure.

Unless expressly stated otherwise, Kerala Paints does not warrant:

A. Roof structure; b. Concrete;
C. Plaster; d. Masonry;
E. Plumbing; f. Drainage;
G. Sanitary fittings; h. Windows;
I. Doors; j. Tiles;
K. Structural waterproofing; l. Electrical installations; or
M. Other components of the building.

38. COMPANY'S TECHNICAL DETERMINATION

Kerala Paints shall assess warranty claims on the basis of available:

A. Registration records; b. Site inspection;
C. Photographs; d. Technical measurements;
E. Product and batch information; f. Application records;
G. Laboratory findings, where applicable; h. Surface/substrate condition;
I. Probable root cause; and j. Other relevant evidence.

Where the customer disagrees with a technical conclusion, the customer may submit relevant contrary technical material or request reconsideration through the company's grievance-redressal process.

Nothing in this policy makes kerala paints' technical determination legally final or prevents a consumer from exercising remedies available under applicable law.

39. CUSTOMER GRIEVANCE REVIEW

A customer dissatisfied with the first warranty determination may request internal review by Kerala Paints by providing:

A. Warranty number; b. Claim reference number;
C. Reasons for disagreement; d. Supporting photographs;
E. Expert report, if any; f. Laboratory report, if any; and
G. Additional relevant evidence.

The company may refer the matter for review by a senior technical or quality representative.

40. PRODUCT AVAILABILITY AFTER SEVERAL YEARS

Kerala Paints cannot guarantee that a particular shade, formulation, pack size or product version will remain commercially available throughout a long warranty period.

Where an eligible warranty repair requires a product or shade that has been discontinued, Kerala Paints may, where technically appropriate, offer:

A. The nearest available shade;
B. A technically equivalent or superior replacement product;
C. An equivalent product within the same category; or
D. Another reasonable rectification solution.

Exact shade matching with an aged coating cannot be guaranteed.

41. PACKAGING, LABEL AND WARRANTY COMMUNICATION

No dealer, painter, contractor, employee, distributor, outlet or other person is authorized to enlarge or alter the Company's written warranty unless such modification has been expressly authorized in writing by Kerala Paints Industries Private Limited.

Oral statements inconsistent with the official written Product-Specific Warranty Schedule should be reported to Kerala Paints for verification.

42. MARKETING CLAIMS

Where Kerala Paints advertises a product as carrying a specified warranty, the applicable conditions, exclusions and nature of that warranty shall be available to the customer through the product label, warranty registration portal, Product-Specific Warranty Schedule or official Kerala Paints website.

Kerala Paints intends that warranty-period advertising be read together with these terms and the applicable product-specific terms.

43. ALTERATION OF POLICY

Kerala Paints may revise this Master Warranty Policy prospectively from time to time.

The warranty terms applicable to a registered product shall ordinarily be the version applicable to that product and registration at the relevant time.

Subsequent amendments shall not retrospectively reduce a warranty already validly granted, except where required by law or agreed with the customer.

44. RECORD RETENTION

Kerala Paints may retain warranty registration, inspection, complaint, technical and settlement records for such period as is reasonably required for:

A. Warranty administration; b. Quality control;
C. Product improvement; d. Legal compliance;
E. Dispute management; and f. Defence or establishment of legal claims,

Subject to applicable data-protection and privacy requirements.

45. DATA PROVIDED DURING REGISTRATION

Customer information supplied during warranty registration or claim processing may be used by Kerala Paints for legitimate purposes connected with:

a. registering the warranty; b. verifying purchases;
c. servicing warranty claims; d. contacting the customer regarding the claim;
e. quality assurance; f. fraud prevention;
g. regulatory compliance; and h. related customer-service activities,

subject to the Company's applicable privacy policy and applicable law.

46. WARRANTY AND STATUTORY RIGHTS

This Policy describes the voluntary commercial warranty offered by Kerala Paints for eligible products.

Nothing contained in this Policy is intended to exclude, waive, restrict or defeat any right, remedy or liability that cannot lawfully be excluded under:

- The consumer protection act, 2019;
- Applicable contract law;
- Any other mandatory law in force in india.
- applicable product-liability provisions;
- applicable rules, regulations or statutory standards; or

Where a provision of this Policy is inconsistent with a mandatory statutory requirement, the statutory requirement shall prevail to the extent of that inconsistency without invalidating the remainder of the Policy.

47. DISPUTE RESOLUTION

Kerala Paints encourages customers to first use the Company's warranty claim and grievance-redressal process so that technical disputes may be investigated and, wherever possible, resolved amicably.

Nothing in this clause prevents a consumer from approaching any Consumer Commission, court, regulatory authority or other forum having jurisdiction under applicable law.

Any contractual dispute that does not fall within a non-excludable statutory jurisdiction shall be governed by applicable Indian law and subject to jurisdiction as determined in accordance with law.

48. SEVERABILITY

If any provision of this Policy is held invalid, unlawful or unenforceable by a competent authority, such provision shall be modified or disregarded only to the minimum extent required, and the remaining provisions shall continue to operate to the extent permitted by law.

49. INTERPRETATION

Headings are provided for convenience and shall not limit the interpretation of the Policy.

Words in the singular include the plural where appropriate and vice versa.

Reference to a "product" includes the applicable coating system where the particular warranty is expressly offered for a complete system.

50. ENTIRE VOLUNTARY WARRANTY FRAMEWORK

The voluntary warranty relating to an eligible Kerala Paints product shall consist collectively of:

**Master Warranty Policy

- Product-specific warranty schedule
- Product label / packaging warranty declaration
- Applicable product information sheet
- Warranty registration record
- Warranty identification number.**

These documents shall together define the scope of the voluntary warranty offered by Kerala Paints.

51. IMPORTANT CUSTOMER NOTICE

BEFORE PAINTING

The customer is advised to:

1. Select the correct kerala paints product for the surface;
2. Ensure that the building is free from active water leakage;
3. Ensure proper curing and surface preparation;
4. Repair cracks and defective plaster;
5. Use the recommended painting system;
6. Follow specified dilution and coverage;
7. Retain invoices and product details;
8. Record batch numbers; and
9. Retain reasonable photographic evidence of the site.

AFTER PAINTING

For products carrying an express warranty:

Register the warranty at www.keralapaints.com under the "Warranty" tab within 15 days of completion of painting/application.

After successful registration and verification:

Your unique Kerala Paints Warranty Number will be sent to your registered email address.

Please preserve the Warranty Number and purchase invoice throughout the applicable warranty period.

52. CORE WARRANTY PRINCIPLE

Kerala Paints stands behind the performance of products for which it expressly provides a warranty when those products are selected, prepared, applied and maintained in accordance with the prescribed system.

At the same time, a coating cannot correct or assume responsibility for defects arising from the building structure, substrate, workmanship, water source, incompatible materials, subsequent alterations or other external causes.

Accordingly, every warranty complaint shall be assessed on the basis of technical causation, documented evidence and the applicable warranty conditions.
